A LITTLE YEAST

“In bible times, people made their own yeast (leaven or "sour dough") for bread. Since it took several days to grow the yeast plant, they always saved a starter batch. This "seed" hastened the process. After a wet winter the yeast might go bad--develop mold spores. Middle East women made a rule of throwing out the old yeast in the Spring to prevent this decay. The custom was eventually connected with Passover, when unleavened (yeastless) bread was baked until the new yeast could be grown. Paul suggests that Christians should periodically throw out old ways of thinking. Thus we can view the message of the Resurrection from a renewed point of view.”

Well Easter is our most important day on the Christian calendar, and our busiest week. A bit of a challenge for those of us who are part time. Well maybe there is another way of looking at it. Perhaps it's the best time of year to confront our difficulties. Christ has risen, even death, abuse, hated, intolerance has been defeated, above all hope rises victorious from the grave. With this resurrected Jesus at our side, can anything really worry us. As we continue to follow Jesus, and trust in his way, surly nothing can stop us, as we seek to take his message of the victory of Grace to all the earth.
